Career Fair!

We had the pleasure of inviting James Ritchie from Global University Systems (GUS) give a presentation on the Healthcare career options that the GUS can offer to our MPS students. It was an interactive session where our MPS students raised questions relating to the Medical school, tuition and scholarships and overall how the GUS can help support the CNU MPS students.

MPS Faculty Publication

Congratulations to our MPS Faculty, **Dr. Eslam Mohamed**, Assistant Professor of Medical Immunology at College of Graduate Studies for his new publication as a co-author in Biomedicines. The title of the paper is "RELT Is Upregulated in Breast Cancer and Induces Death in Breast Cancer Cells". We are always proud of our faculty for their research breakthrough and academic dedication.

MPS Thanksgiving Potluck

We had an amazing Thanksgiving Potluck with our wonderful students and faculty. The delicious food and great company made it truly a memorable event. The variety of food was amazing and the passion that went into each dish was evident, making the celebration even more special. Thank you all for bringing your favorite dishes and sharing in the joy of gratitude.
